

Investment Manager Private Equity
Geneva, Switzerland

Hermance Capital Partners (HCP) is a division of **Banque Pâris Bertrand SA (PB)** created in 2015 focusing on private markets investments. HCP provides a wide range of investment solutions across high-conviction strategies with attractive risk-return profiles in Private Equity, Private Real Estate, and Private Debt. Through its modular approach, HCP enables qualified investors to build a diversified portfolio of high quality private assets. In addition, HCP offers tailor-made solutions in primary funds, secondaries and co-investments for investors.

In 2018, HCP has been recognized by multiple private banks as an attractive private market investment platform and in order to crystalize this conviction, PB, Bordier & Cie and Reyl & Cie have entered into a partnership to promote HCP investment solutions to their clients. Today, HCP provides institutionalized private market investment solutions to private investors, and not limited to the banks' clients, but also to other investors.

HCP is managed by a group of seasoned investment professionals investing in private markets since the late 80s. Collectively, they have managed over USD 6 billion in commitments for institutional and private clients. Since the partnership, the team has doubled the AuM and its activities are growing at a fast pace due to the recent developments, i.e. the change in HCP's shareholders. In order to support this growth, HCP is currently looking for an experienced **Investment Manager Private Equity**.

The incumbent will focus on developing a strong pipeline, sourcing investment opportunities, conducting full due diligence, negotiating terms, and monitoring portfolio investments in Private Equity. In addition, this candidate will participate in the continuous fund raising effort for our family of Private Equity funds and private equity bespoke mandates.

Candidate Profile

- Confirmed experience and proven track record in similar role (min. 5 years in a similar role within the Private Equity industry)
- In-depth understanding of investment processes.
- Established network of GPs in the Private Equity industry
- Self-starter attitude and pragmatic approach.
- French and English a must. Any other languages are a plus.
- Ready to travel to a certain extent.
- Strong entrepreneurial mindset
- Excellent communication and interpersonal skills
